

## Webinar

# SAFE RECYCLING & SECOND USE OF EV BATTERIES: SKILLS AND COMPETENCIES NEEDED

## AGENDA

January 27, 2023  
09:30 – 11:00 CET

### WELCOME BY THE MODERATOR

09:30

**Kari VALKAMA**, Merinova Technology Centre / ALBATTs Work Package Leader

### PRESENTATION OF ALBATTs

09:35

**Lukáš FOLBRECHT**, Czech Automotive Industry Association / ALBATTs Work Package leader

### EXPERTS PRESENTATIONS & DISCUSSION

09:45

*Importance of standards in recycling batteries in the context of a European circular economy*

**Iuliana CHILEA**, Managing Director, National Standardisation Body – ASRO (RO)

*Watt4Ever: transforming end-of-life EV batteries to assets for the energy transition*

**Aimilios ORFANOS**, CEO / ReVolta&Watt4Ever (BE)

*Workforce in battery recycling and reuse - the view of a SaaS provider*

**Jan BORN**, CTO / Circunomics GmbH (DE)

**Jenny GAEKEL**, Human Resources Business Manager / Circunomics GmbH (DE)

*Battery Safety Considerations for End of Life and recycling*

**Johannes RÖSSNER**, Founder and Managing Director, BT Advisor UG (DE)

### CLOSING REMARKS

10:50

**Kari VALKAMA**, Merinova Technology Centre / ALBATTs Work Package Leader

**Kari Valkama** is a project manager at Technology Centre Merinova in Vaasa, Finland. Merinova is the leader of the EnergyVaasa Cluster that possesses the Gold Label of Cluster Management Excellence. Its cutting-edge expertise is in energy technology and business development. Merinova is involved in various projects, programs and services regionally, nationally and globally. Kari holds a degree in Business Administration. He has years of experience in working with business and general development related tasks in SME companies in metal and cleantech industries.

### SAFE RECYCLING & SECOND USE OF EV BATTERIES: SKILLS AND COMPETENCIES NEEDED

BIOS

January 27, 2023  
09:30 – 11:00 CET

**Lukáš Folbrecht** has been leading ALBATTs project WP5 – Intelligence in Mobile Battery Applications, which analyses the use of battery technologies and relevant job roles and skills in moving devices. His previous experience includes positions in SKODA AUTO, the Office of the Government of the Czech Republic and the media, as well as work and study experience in the US, the UK and Brussels. Lukas is also a secretary of the Czech E-mobility Platform and an e-mobility enthusiast.

**Iuliana Chilea** is the General Director of the Romanian standardization body (ASRO) since 2017. She has been actively involved in the standardization activity for over 15 years, with active participation in the technical and management structures of CEN and CENELEC – the European standardization organizations, where she was nominated to lead various working groups focused on developing and reshaping the standardization processes.

As the Romanian delegate to the Committee on Standards of the European Commission she is aware of all the trending activities related to regulations, directives, standardization mandates the EC is developing in order to implement its objectives for the European Market.

**Aimilios Orfanos** is an expert in energy flexibility and energy storage. He has 10 years of experience in the industry, where he led the creation of innovative products in energy flexibility in companies like Elia and the Casino group. He is a leading expert in energy storage and demand response in Belgium, and in his role at Elia has led the opening of ancillary services to batteries. He is the founder and CEO of Watt4Ever and ReVolta.

**Jan Born** is Co-founder & CTO of Circunomics GmbH, a company dedicated to increasing the efficiency and profitability of reuse and recycling of lithium-ion batteries. Jan has a MSc Computer Science and more than 15 years of experience in digital business and transformation, most recently as CTO & MD of the tech company mediaman. He focuses on business value of technology and on the automotive sector.

**Johannes Rößner** is the founder and managing director of BT Advisor UG, which aims to improve the safety of battery handling. He has over 10 years of experience in the battery industry. He worked at TÜV SÜD in Munich in a battery test laboratory with various functions and was in charge of all kinds of battery tests. In the last 7 years, Johannes worked in Japan and China and was involved in the planning, construction, and operation of battery test labs there. In June 2022, he founded BT Advisor UG after returning from Asia.
